

**NO ACCIDENTS**  
Easy to Seal Easy to Open

Slip knife blade under edge of cap, draw all round and raise—no twisting or straining. Press cap firmly down and seal is airtight. Keeps fruit perfectly. The cheapest and best wide-mouthed, clear glass fruit jar. See it here today.

### The Schram Automatic Lever Fruit Jar

is the greatest jar ever made and has won its way to a place above every fruit jar made. Nice, clear, good glass. Pints, \$1.00; quarts, \$1.25; half gallons, \$1.50. And the beauty of it all is we are selling these jars at a price as low as the lower priced jars have usually sold here and must result in forcing others down, for no housewife would ever buy any other at the same price.

Call and see the Schram Jar.

### Of Local Interest

**WHITSUNTIDE**—The Jewish festival of Whitsuntide begins Tuesday evening and lasts until Thursday evening. It is commemorative of the giving of the law to Moses on Mount Sinai and is celebrated as a feast, not as a fast. On these dates the people of that faith are supposed to adorn their tables with the best their means or their resources permit.

**ONE VIEW OF IT**—One of the strongest arguments ever put out in favor of the use of whisky comes to this office from the National Model License League. Dr. Joseph M. Matthews, ex-president of the American Medical association, and for seventeen years president of the Kentucky state board of health, says that "for every one death produced by whisky, there have been one thousand deaths produced by the drinking of impure milk; for every single death produced by whisky, there have been five thousand deaths from the drinking of contaminated water." It isn't difficult, in the light of such distressing facts, to see that what the American people has to do to protect its health is to cut out milk and water and use whisky exclusively. Paraphrasing Patrick Henry, "Give us whisky, or give us death."

**A GLOBE HOMICIDE**—According to the latest reports from Globe, the coroner's jury which was drawn in that city to investigate the death of John Columbo, who was shot by Deputy Sheriff Edwards, had not yet reported, and expected to continue in that city for another day before there would be any probability of their arriving at a decision. An endeavor was made Thursday, before the death of the victim, to secure a statement from him, but the Austrian insisted that he was going to recover, and he refused to make any statement. Although there is considerable difference in the testimony of several of the witnesses, it is generally agreed that the officer was not to blame, and that he fired the fatal shot in defense of his own life. Deputy Sheriff Edwards had gone to the Pioneer saloon for the purpose of placing under arrest Sam Walch, who had been firing a revolver at random during the progress of a fire. Walch refused to surrender his gun, and the officer clubbed him over the head with the butt of a revolver. At this time Columbo interfered and grabbed the revolver which the officer held in his hand. Edwards, thinking that the gun would be wrested from his grasp, turned it toward his assailant and pulled the trigger. The shot penetrated the abdomen of Columbo, making six incisions in the intestines. About twenty-four hours after the shooting, he died in the hospital at the old Dominion. Further testimony will probably be introduced relating to remarks which the wounded man made immediately after the shooting. The general opinion is, however, that the officer will be cleared of all blame.

**A PIONEER PRINTER**—William Lady whose name is entitled to be enrolled in Arizona's Hassayampa Directory, drifted into Phoenix the other day and quite likely has drifted out again by this time. Lady is a printer by trade and a good one, one who was known all over the west in the old hand-picked days, and particularly in Arizona. Like many another printer however he yielded to the lure of the gold and could not stick to his virtuous profession only long enough to get a stake and hit for the hills. It is understood he is here this time on the trail of a bonanza and it is hoped he will find it for the tracks have been seen all over these parts during the

Phoenix.

past winter and it was all but caught up with out at Salome. Mr. Lady has the distinction of having first drifted into Phoenix as the foreman of the mechanical department of the old Arizona Exposition when, it was moved to Phoenix from Yuma back in 1879 or thereabout. The rest of the force consisted of a Mexican boy who was hired on press days, as roller boy, to ink the forms when placed in the old Washington Armstrong press. He was not the earliest printer in Phoenix by any means as the Phoenix Herald had been established by Charlie McClintock, brother of the present Phoenix postmaster, a year or two before, but when one speaks of Lady's advent he is getting back mighty near to the primeval days of the printing business in these parts. Whether Lady has changed his habits in recent years was not learned but in the older days he boasted that it was against his principles to ride into any town. If a train or a vehicle came to be going his way he would not object to a lift over the desert but when he got near town he climbed down and took to the road in the time honored fashion of the journeyman.

**WATER SUPPLY FOR VULTURE**—It is said the Vulture mine development has developed a permanent water supply on its own property. The deep well drilling by Los Angeles contractors began in March and at 515 feet plenty of water was encountered. The pumping equipment is all installed and in operation and the flow exceeds the capacity of the pumps.

**OSBORN NOTES**—George H. Munro, is visiting his parents, Mr. and Mrs. H. J. Munro at Shady Place. Mr. and Mrs. Keifer are co-situated in their new cottage joining Shady Place. Charles Keifer was called to Goldfield on mining business.

**A SURGICAL OPERATION**—A difficult surgical operation was performed at the Sisters' Hospital yesterday on Mrs. P. Kalsman. She withstood it well, and the surgeons have every reason to believe that it will be entirely successful.

**BOY MAYOR OF MILWAUKEE**—COMING—Sherburne Becker, the former boy mayor of Milwaukee, who achieved fame by defeating Mayor Rose in the last of the six campaigns which Rose made for mayor of the brewery city, will be a visitor in Phoenix this week and will probably remain in the valley for several days. At the time of his first election Becker was only twenty-six years of age and was practically new to the game of politics. Mr. Becker has just completed a tour of the Panama country and is now engaged in making a study of conditions in the southwest. He will probably spend a month in the territory and has already made a visit of several days to the city of Tucson.

**THE NEWSBOYS' PICNIC**—The picnic of The Republican's newsboys yesterday was a glittering success and P. Grant Smith, superintendent of circulation, who had charge of the wild bunch, returned home feeling very much of a kid himself. The picnic party before it started dwindled down to twenty-five or thirty, as about fifteen of the youngsters went to the depot to sell papers to the excursionists and made so much money they joined the crowd and went along. But the rest of them had equally as good a time, perhaps a better one, and enjoyed their day as much as a bunch of young coyotes would after close confinement for a month. They invaded the Camelback country and somewhere out there found the ruins of an old house with a cook stove still standing in it, which was used for preparing their picnic meal. The birds spoiled on the manager and he had to resort to the butcher shop for supplies but before he returned every kid had a perfect house lining in his stomach and the area between walls was filled with pies, lemonade and all other indigestible stuff the youngsters are so fond of. They ate all they wanted, drank all the lemonade they could and then bathed in the rest of it. They had pie races and pie fights and kept up the fight until they returned home, covered with pie inside and out. They also took possession of one of the canals and had a contest to see which one could go in swimming the most times in one day. It was a dead heat for they were all in and out all day long.

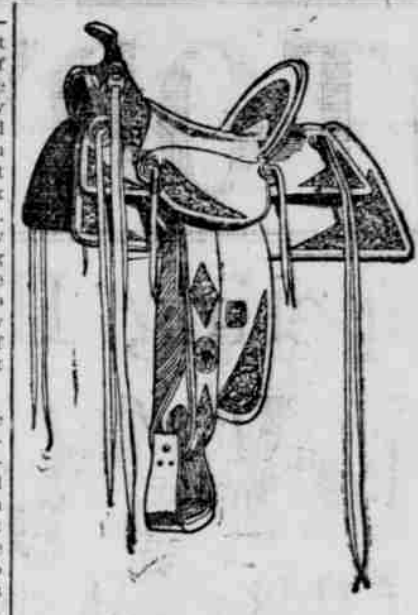

**LAST OF JOHN L. SULLIVAN**—The farewell appearance of John L. Sullivan met a record breaking house at the Coliseum last evening. Not only was the house itself packed, jammed and crammed with humanity hungry for amusement, but for half a block from the Coliseum the crowd stood waiting. Miss Christie Dene, in her Lasserella dance, which resembles the famous grace dance, Salome, is the classiest extravaganza of its kind ever introduced in Phoenix. The power of beauty, grace and rhythm cannot afford to miss this number. The foreign high class tumbling attraction by the Belfonts is altogether different from anything ever brought to the coast. Those who do not believe that a woman can be dainty, attractive and at the same time possessed with strength greater than the average man, should go to the Coliseum before passing judgment. The whole bill was better than has ever been placed on the Coliseum boards.

**DEATH OF JOHN B. HUTTON**—John B. Hutton died yesterday at his home at the advanced age of seventy-three. His funeral will be held in the Baptist church Tuesday afternoon at 2:30 o'clock. Deceased came here about five years ago with his wife, who survives him, having at the time an invalid son in Phoenix who died about a year and a half ago. The elder Mr. Hutton was formerly a Baptist minister and since coming here he had the Baptist church in the Fowler district under his care for two or three years. He is survived by three grandchildren and the wife of his late son, who is now quite ill at Long Beach, Cal.

**MARK SMITH WILL ORATE**—The high school board of trustees has arranged with Hon. Mark Smith to deliver an address to the high school graduating class at Elks theater on the occasion of their commencement exercises Thursday night. It will be a great pleasure for the graduates to listen to a speech by one who has served so long in the national legislative body, where all the boys and possibly the girls hope some day to make a record. As Mr. Smith is a very pleasing talker his address will also be greatly appreciated by all others who are privileged to attend.

**GOVERNOR SLOAN BACK**—Governor R. E. Sloan returned yesterday afternoon from Prescott, where he has been for several days.

**BACK FROM RAY**—Walter Harvey Wood, geologist for the Lewis and Clark expedition, returned yesterday from Ray, accompanied by Ralph Williams of Ray.

**SERMON TO GRADUATES**—The baccalaureate sermon to the class of '09 of the Phoenix high school was preached last night at the First Baptist church by the Rev. Orville Coats. All of the other churches in the city omitted their services and held a union service at the Baptist church. A large crowd of the friends of the graduates was present and the church was filled to its full capacity. The sermon was a strong and forceful address of good advice to the young people just entering on the trials and about to meet the temptations of a maturer life. All of the ministers of the city were present on the rostrum and all took some part in the service.

**LESLIE GILLET'S NEW JOB**—A special to The Republican the other day mentioned that Leslie M. Gillett had been appointed practical miner in connection with the land office. He will be assigned to duty in New Mexico. His duties will be to inspect all mining properties for which patents are applied and to investigate and report upon the character and value of all coal lands belonging to the government and for which applications to purchase are pending. The job will be a busy one for the six land offices of New Mexico are just now doing more than half the land office business of the United States.

**A COMPARISON**—A Phoenix man who doesn't know any more about farming than he does about politics, took a drive yesterday through the country south of Glendale. He came

back enthused after comparing, in his mind, what he saw and what he saw at this time last year. He has no technical knowledge of raising crops, but he believes would appeal to the most ignorant observer of farm life. Where he saw vacant fields and desert brush a year ago, he now finds a vast acreage of sugar beets and other crops, and that all appear to be in a flourishing condition. If farming isn't a good business this year, the evidences are very misleading.
